

THE ULTIMATE GUIDE

to Choosing Your Outdoor table

*Picnic, Dining, Cocktail,
Folding & More*

WELCOME TO FOREVER REDWOOD'S CATALOG!

Forever Redwood was founded in 1995. We are a forest restoration company. We mill a limited amount of California Redwood each year to build our highly valued furniture line. Forestry is the heart of our business, and each piece of furniture helps pay for the restoration and future purchase of additional forestlands. We can't do it without you! To learn more, please visit: <http://www.foreverredwood.com/restoration-forestry/overview>

Forever Redwood mills lumber the old-fashioned way. For example, a 2x6 is milled a real 2" x 6" instead of what is called a 2x6 today (1 1/2" x 5 1/4"). The much thicker lumber is unique in the marketplace and is a consistent theme in all the catalog items.

Each "thick-timber" Forever Redwood piece is carefully hand built and finely finished with only the best materials available. We offer warranties of up to 30 years in any climate. The term Forever Redwood truly describes the line. The secret to outdoor longevity begins and ends with the wood. We use generous amounts of the most decay-resistant wood available.

We encourage our customers to compare photos of our items side by side with any competing product. Thickness counts. Furniture that is thin and light simply won't last in the year-round weather.

Our primary customer has always been the homeowner who appreciates spending a bit more for quality that will last decades. Our products are installed with organizations that appreciate longevity like the U.S. Forest Service, U.S. military installations, state and city parks, educational facilities, golf clubs and hotels.

We are favored by landscape architects, developers and contractors because of our exceptional quality and quick personal service to complete projects. Each product is finely finished and carefully inspected. Old-fashioned hand building also allows us to adjust the size or design of any item to fit your needs.

Because we are a forestry company, you can choose from five exceptional wood grades. Weather-related wood decay is warrantied from 10 to 30 years depending on the wood grade selected. No other wood manufacturer has comparable warranties. In the unlikely event the wood becomes soft before the warranty period expires, contact us and we will send replacement parts at no cost.

We are here to support you now and decades down the road.

We hope you enjoy this overview catalog introducing our tables. Discover additional products and photos along with pricing, customization options, and additional information on our website.

Thank you for your interest. Please let us know how we can be of service.

From the forest, for the forest,

Raul F. Hernandez, CEO raul@foreverredwood.com

PICNIC TABLES

When you purchase one of our Forever Wood Picnic Tables, you are investing in a legacy piece that will last generations.

RECTANGULAR PICNIC TABLES

These fantastic wood picnic tables can be purchased with either benches attached to the table, or with separate benches. This is the perfect table for large gatherings, campgrounds or restaurants with outdoor eating spaces.

These tables can take whatever you throw at them, and are constructed with 30% more wood than the leading competitors. We use the highest quality restoration forestry timber and build each piece by hand in our woodshop. There are no cheap materials or flimsy hinges here.

- Forever Picnic Tables are available in lengths from 4 to 14 feet and seat up to 18 adults comfortably.
- Each table is handmade per your instructions. Choose your preferred length, tabletop width, corner styles, umbrella hole and other options.
- Materials to last a lifetime – extra thick Redwood outlasts cedar or teak. We use only stainless hardware and the best weather-resistant sealant.
- Fast assembly. Sets ship in less than 15 parts. Tabletop and benchtops always ship assembled. Just attach the legs and supports and enjoy your wood table.
- Ordering is easy. Simply visit www.foreverredwood.com, select your table, and customize as you wish. We ship anywhere in the Continental United States.

DINING TABLES

GO WITH REDWOOD FOR DURABILITY & DISTINCTIVE STYLE. There are dozens of choices when it comes to materials for your outdoor room. Authentic California Redwood stands apart for its proud tradition, earthy tones, robust strength, and longevity. Feel free to request wood samples to see for yourself. Redwood is the most insect & moisture-resistant, naturally occurring wood species in North America. That's why we offer up to 30-year decay warranties.

By investing in a Forever Redwood set, you'll be helping to restore the REDWOOD FOREST and fostering a sustainable connection to a majestic species—one of the most powerful and beautiful trees on the planet.

A photograph of an outdoor cafe seating area. In the foreground, a round wooden folding table is surrounded by four matching wooden folding chairs. The table and chairs are arranged on a paved sidewalk. In the background, several other similar tables and chairs are set up under large orange patio umbrellas. The cafe building has large glass windows with reflections and some text visible inside, including "Fruit • Coffee • Tea • Vegetables" and "Grocery • Bulk". The scene is bright and sunny, with shadows cast on the ground.

FOLDING TABLES

A portable table that's versatile and sturdy is important when you're on the go. These beautiful wood tables unfold with ease. Add folding chairs to complete a portable set.

Wood Grade

One of the most important decisions you'll make about your table is wood grade. Weather resistance, maintenance, ecological impact, and beauty all factor in.

We exercise an unparalleled level of quality control in our lumber supply because we are hands-on every step of the way:

- From the moment we sustainably harvest the wood from our restored forestlands, or that of our restoration forestry partners
- To the milling and hand-selection of the lumber
- To master carpenters whose woodworking skills bring your vision to life

When ordering your table, you can choose from five different wood grades, including two types of Redwood.

Left to right: Douglas-fir, Mosaic Eco-wood, California Redwood, Mature Redwood and Old-Growth Redwood

What makes Redwood so special?

Durability: Redwood is the most insect & moisture-resistant, naturally occurring wood species in North America. That's why we offer up to 30-year decay warranties.

Beauty: The warm, reddish hues will enhance your shade structure.

A Special Note for Restaurant Owners

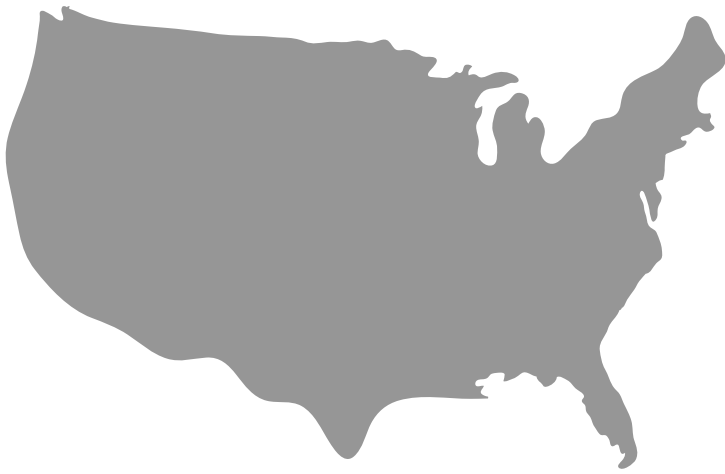

Our hand-crafted indoor and outdoor tables will enhance the dining experiences of your guests.
