14 x 16	224	2352 to 2800	4 x 8
16 x 16	256	2688 to 3200	4 x 8

We can customize our gazebos to suit your needs. Just tell us what size and options you want. Prior to building any Gazebo, we provide our customers with a set of detailed drawings based on their proposed features. This lets you review any choices made so that you may adjust as needed before the building process begins. Drawings are a great way to make certain all details have been considered and that your Gazebo will be exactly what you dreamed of.

ROOF: Standard roof overhang is 12 inches
