Assembly Instructions for Adirondack Chair OTTOMANS

Thank you for purchasing Forever Redwood patio furniture. Forever Redwood is built by Old-Growth Again Restoration Forestry (OGA). OGA is dedicated to restoration forestry. Sales of patio furniture finance our restoration work in California redwood forestlands.

Tools required: ½-inch ratchet and a mallet or small hammer.

On the following page, 3 photos demonstrate the steps to re-assemble the ottoman.

1

2

3

Photo 1: Your ottoman was partially disassembled into 3 parts and hardware (ottoman, two legs, 4 carriage bolts, washers and nuts). Unpack your ottoman and make sure you have all the parts. Turn upside down. You'll notice that each corner has a number that corresponds to each leg. Match the leg number to the corner hole and attach with two carriage bolts. Align the predrilled holes, lightly tap the 2 bolts in. The bolts should tap into their holes. If you have to force a bolt, the leg is probably not oriented properly, is in the wrong hole or it is turned around. Make sure the bolts are tapped all the way into the wood, then add washers and nuts and tighten with a ½-inch ratchet. Do not over tighten or you'll crush the redwood and weaken the ottoman's structure.

Photo 2: Repeat the process in photo 1 for the other leg. Photo 3: Turn ottoman around – done.

Thank you. If you have any questions, please call or email us.
