- **Experience that Matters:** Built & installed over 3,000 tables since 1995.
- **Warranties of 10-30 years.** U.S. Forest Service stands by our tables.
- **Personalized customer service** available to help you find the perfect table.
- Your purchase funds the **restoration of California Redwood forests.**

*"This table is truly a work of art. You just don't see this level of craftsmanship anymore!" —Chris W., Graton, California*

*"We have finished putting the table together. It is everything we expected. Beautiful!! Wonderful workmanship!! You should be proud. We love the plaque that goes on the table. The table looks just like what I saw on the internet. Thank you so much. I hope your business is blessed and you are very successful." —Donna R., East Peoria, IL*

*"My ten-foot picnic table is so sturdy it's been doubling as a dance floor!" —Ian M., Sebastopol, California*

# PICNIC TABLES

## OVERVIEW

### The Eternal Picnic Table

Some objects seem to belong to an eternal order of things. It's as if they existed in the mind of philosophers even before they appeared on this Earth. The Picnic Table is one such object.

Can you imagine a park, campground, yard, barbecue, or practically any outdoor gathering of family and friends for food and refreshments without a picnic table to sit at?

It's a moment of life, a slice of joy—with the kids playing in the sunshine and the sweet, smoky smell of the grill.

Year after year, you relax into the fading afternoons, as dusk falls with its soft orange-red glow. The kids get older; new ones arrive; life goes on....

And the object accompanying it all? That humble Picnic Table—so real and practical, absorbing spills and storms and errant frisbees—yet outlasting us all, somehow magically suspended in eternity.

### A Poetry of Wood

Forever Redwood makes authentic **100% solid wood** Picnic Tables that embody the spirit of great furniture—simplicity, strength, durability; form and function joined in a slow dance of beauty.

It starts not just with the wood, but the *forest* the wood came from. Our eco-forestry practices go *beyond* “sustainability” (which focuses on maintaining an ecological status quo) to the *restoration* of our forestlands to their Old-Growth grandeur—to a time before rampant logging almost destroyed them entirely.

The wood itself is simply amazing. When you pass on that Big Box Store table-like product and purchase a genuine Forever Redwood table instead, you're making a choice for craftsmanship, quality, and a healthy relationship with Nature. It's like the difference between some mealy supermarket peach and an organic peach from the Farmer's Market at the peak of its juicy ripeness.

We offer **5 grades of wood** for different climates and budgets, as well as a **variety of finish options** to get the exact look you want.

We don't skimp. Only full-dimensional lumber is used, averaging **31% more wood** than a typical picnic table.

With minimal maintenance, our tables will last for decades. That's why we feel comfortable offering **warranties of 10-30 years**.

### Simple Geometry

Our classic **Round** and **Rectangular** Forever Picnic Tables are popular choices. You really cannot go wrong with these. If your space calls for something a little different, consider an **Oval** or **Octagonal** Picnic Table.

If you're the kind that doesn't settle for anything but the best, the **Heritage Picnic Table** may be for you. It's one of our most special creations, made with reclaimed Old-Growth Redwood and 12-inch boards. This is a table you will want to pass on to your grandkids.

*“We love the table and benches... you can serve up FISH STICKS on that table, and it still feels like an event! It's got an incredible solidity and presence that I've never felt from a “picnic table” before. KUDOS on your incredible product. I've never really been in love with a picnic table before!!”*

*-Adam K., California*

### Options Galore

From the tabletop pattern to the flare of the legs, you can customize our tables to your liking. Get benches attached or detached, with backrests or without, and more.

**We hand-build all our furniture**, so if there's something you're dreaming of, just ask! If it's physically possible, odds are we can make it.

### Heart-wood

*Like all works of art and labors of love, a real picnic table is ultimately a matter of the heart.* It reflects something about who we are, our tastes and values. It connects us to the Earth.

And, it simply *is*... serving through the seasons, always ready for the next big fun event—yours truly for years to come.
