Assembly instructions for:  
**FOREVER ADIRONDACK CHAIRS**

# ASSEMBLY INSTRUCTIONS

## CONTENT OF THE BOXES

The parts that go together have the same numbers written next to the predrilled holes they attach to. Align the parts with the numbers as shown for ease of reference

**Tools required:** ½-inch ratchet and a mallet or small hammer.

**1** Take the seat and place it on the ground as shown.

**2** Take the chair seat and align the pre-drilled bolt holes to the bolt holes on one of the two chair sides. The chair side bolt holes have numbers written next to them. The chair seat bolt holes have numbers written next to them. Match up the numbers to attach the two parts together. Tap the 4 carriage bolts all the way into the wood and through both the chair side and the chair seat. Then insert the washers and nuts from the interior side of the chair seat and tighten with a ½-inch ratchet. Do not over tighten or you'll crush the redwood and weaken the chair's structure.

Repeat this step with the other side.

**3** Attach back rest to finish chair reassembly. Match the numbers next to the predrilled holes on the back rest to the numbers on the back rest supports on each chair side. Tap the carriage bolts all the way into the wood, then attach the washers, nuts and tighten with ½-inch ratchet. Do not over-tighten.

**4** Is a picture of the finished Adirondack chair enjoy! Thank you. If you have any questions, please call or email us.
