## Assembly instructions for: **KID'S ADIRONDACK CHAIRS**

Thank you for purchasing Forever Redwood patio furniture. Forever Redwood is built by Old-Growth Again Restoration Forestry (OGA). OGA is dedicated to restoration forestry. Sales of patio furniture finance our restoration work in California redwood forestlands.

**Tools required:** ½-inch ratchet and a mallet or small hammer.

**Box Content:**

Quantity	Description	Drawings
1	Seat	
1	Backrest	
2	Arms	
12	4" x 5/16" Bolts	

Your furniture was fully assembled in the shop prior to being dismantled for shipping. All the parts fit. The parts that go together have the same numbers written next to the predrilled holes they attach to. Please take the time to align the parts with the numbers. If you are forcing a bolt in, the part may be turned around or not aligned properly. Tap the bolt all the way into the wood to set it, then add a washer and lightly tighten. Don't over tighten or you will crush the redwood.

**Photo 1:** Unpack your side table and make sure you have all the parts. Take the seat and place it on the ground as shown.

**Step 2:** Attach the arm to chair seat by aligning the pre-drilled holes on both. Match up the numbers written next to the holes. Tap the 4 carriage bolts all the way into the wood and through both the chair side and the chair seat. Then insert the washers and nuts from the interior side of the chair seat and tighten with a ½-inch ratchet. Do not over tighten or you'll crush the redwood and weaken the chair's structure. Repeat this step with the other side.

**Step 3:** Attach back rest to finish chair re-assembly (2 bolts per side). Match the numbers next to the predrilled holes on the back rest to the numbers on the back rest supports on each chair side. Tap the carriage bolts all the way into the wood, then attach the washers, nuts and tighten with ½-inch ratchet. Do not over-tighten.

Thank you! If you have any questions, please call or email us.
