## B. Planter Finishes

**Growing Veggies?** Over the years, some customers have expressed concern about the possibility of getting wood sealant into the soil where they plan to grow food. If you share this concern, let us know. Any planter can be ordered without interior sealant treatment. Just write us a note as you're checking out in the comment box and we will not use our oil-based sealant inside the box. We will seal the box on the outside only. The planter box will not decay for many years without an interior sealant despite the constant moisture because of the high quality wood we insist on using for all our products.

**Redwood is so decay resistant that our planters do not need liners of any kind.** Our planters are built with extra-thick high quality Redwood and fastened with stainless steel bolts and deck screws. There is nothing to decay, nothing to rust. Planter bottoms are elevated one inch off inside the walls for easy drainage. You can add soil directly into the planter box-no pots, interior liners or sealants are necessary. Drainage holes are 1/4-inch round and are scattered generously over the planter bottom. All planter sizes are overbuilt to prevent bulging or sagging.

**We can custom build and ship Planter Boxes in any dimensions up to 14-Foot long anywhere in the U.S.** In California we deliver planter boxes up to 20-Foot long. (If you live outside California and want a planter over 14-feet long, please [contact us](#) for a quote.) Most packages ship via FedEx Freight. [See how easy it is to assemble our planter boxes!](#)

## C. Finish Options

All our furniture ships finely sanded to 220 grit for a smooth to the touch finish.

The most popular finish is our Transparent Premium Sealant. This sealant leaves your furniture looking natural and helps keep the beautiful wood surface colors from fading for several years. We use Sickens brand finishes because they are the best finishes on the market. For more information about our finishes and how to keep your furniture looking great year after year, please go to: [Care & Finish](#).

### Unfinished (fine sanding only):

If you are applying your own stain or want the surface color to fade to a "weathered look" in a few months. We do not recommend you leave your furniture unfinished outdoors for any extended period regardless of wood quality. Outdoor weather changes constantly and it is best to at least seal the wood to protect it from consistently absorbing and losing moisture.

### Transparent Premium Sealant - Recommended for Outdoors:

Below are the 5 grades of wood we offer with the Transparent Premium Sealant applied. The color tones shown are close representations of the color your furniture will look like. There is no extra charge for the Transparent Premium Sealant:

				
Douglas Fir (10 yr. Warranty)	Mosaic Eco-Wood (10 yr. Warranty)	Redwood (15 yr. Warranty)	Mature Redwood (20 yr. Warranty)	Old Growth Redwood (30 yr. Warranty)

We also offer the Transparent Premium Sealant with the following stains. There is a small charge for adding these stains because it increases the total amount of coats to 4 with the sealant as the final coats:

Here is how the Cherry Stain looks like on Redwood

**Tiger Stripe Effect**

Douglas-Fir when stained dark creates a "tiger stripe" effect as shown in this photo. It is beautiful and most customers love it. If you are looking for a dark consistent stain and do not want to see a "tiger stripe effect", please go with any of the Redwood grades for a more consistent stain finish.

## Primers

- **Off-White Oil-Based Primer:** If you are painting a light color. We apply two coats so that it is ready for one final coat.
- **Gray Oil-Based Primer:** If you are painting a darker color. We apply two coats so that it is ready for the final coat.

### III. ASSEMBLY & CARE

The **Vase Planters** ship fully assembled. Just unpack and enjoy.

#### **All You Need is a Few Tools and a Friend.**

Assembly is best done by two people and usually takes about half a day to a day, depending on size. Pergolas need a ratchet wrench, a hammer and a ladder to put them together. In some cases, you might need a drill to attach the posts into concrete. As with all our products, we preassemble pergolas in our shop to ensure everything fits together. All hardware is included and all parts are clearly labeled before it is shipped. We also include detailed step-by-step instructions.

Take a look at our assembly instructions below for specific details. If you plan to pour concrete to hold the posts, the project will require an additional half day prior to assembly. Please do the concrete pour a few days prior to assembly to allow the concrete to cure.

#### **Installation Help.**

Special talent is not required to re-assemble our pergolas. But, if you would like help, [just let us know](#). We have our own team for installations in California, Nevada and Southern Arizona and a network of local contractors we recommend for farther afield.

**Care:** Your Forever Redwood Furniture will last for decades in year-round weather without maintenance.

Depending on the wood grade you choose, even with harsh year-round outdoor conditions, you can expect your furniture to last from ten to forty years without maintenance of any kind.

Being outside year-round is rough on any woods finish. The surface absorbs UV rays, pollution, constant variations in moisture and temperature and it also oxidizes. This is why most wood just doesn't hold up and the surface color slowly changes towards a silver patina over the years. But, with Forever Redwood, you don't have to worry. The silver patina is surface deep only (less than 1/64") and is not indicative of decay. Your set will last decades and is not compromised in any way by the surface color change. For example, we keep our display items as is without refinishing to show off this natural aging (we like the patina!).

Although Forever Redwood is maintenance-free, we recommended you take a few minutes as needed to clean by either hosing down and/or brushing/dusting away accumulated debris (no soap or chemicals needed). If you'd like to keep your set looking its best for decades, please go to: [Care and Finish](#).

## IV. MATERIALS

The secret to outdoor longevity begins and ends with the wood. We use generous amounts of the most decay resistant wood available. We encourage our customers to compare photos of our items side by side with any competing product. Thickness counts. Furniture that is thin and light simply won't last in the year round weather.

To keep your furniture beautiful, we use only stainless steel hardware and the highest quality stains and sealants. We use only the Sickens brand of sealants.

Our primary customer has always been the homeowner that appreciates spending a bit more for quality that will last decades.

Our products are installed with organizations that appreciate longevity like the U.S. Forest Service, U.S. military installations, State and City parks, golf clubs and hotels.

We are favored by many landscape architects and contractors because they can count on exceptional quality and quick personal service to complete projects.

We build each item by hand. This insures your set is finely finished and carefully inspected. Old-fashioned hand building also allows us to adjust the size or design of any item to fit your needs.

Because we are a forestry company, we can offer 5 exceptional wood grades to choose from our carefully managed forests with warranties of up to 30 years against decay in any weather. [Click for more about our 5 wood grades.](#)

## V. WARRANTY

Wood decay is warrantied up to 30 years depending on the wood grade. No other outdoor furniture manufacturer has warranties like this. The key is the excellent quality of our wood and the extra-thick timber designs of all our pieces.

- Mosaic Eco-Wood: 10 years
- Redwood: 15 years
