

If you'd like a particular font style for your custom engraving, just send us a Word or PDF doc with the font, spacing, and wording you would like. Send it to info@foreverredwood.com after you place your order. Be sure to let us know you're sending it in the comment box during checkout, so we know to expect it. We will do our best to match the style. Due to limitations of the engraving tool, we may not be able to do *extra-fancy* fonts. The example below, however, is within the range of what we can do.
